

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
Using Cognos display the data

Key rules of brainstorming

To run a smooth and productive session

Stay in topic.

Defer judgment.

Go for volume.

Encourage wild ideas.

Listen to others.

If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

HARISH	JANARTHANAN	ABDUL THAVAB	KARTHIK RAJ
Summary cards	Algorithms and no of complexity	Waterfall chart	columns chart
no of airports by continent	flight chart by categories	data visualization	data preparation
pie chart continent wise	packed bubble chart	continent filter	data set
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart
columns chart	columns chart	columns chart	columns chart

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

Job Recommendations

Recommend jobs based on users search criteria

Recommend jobs based on job posting location

Recommend jobs based on users work time need

Resume

Validating the resumes of the user

Connected with recruitment companies as they can announce vancancies

Connected with social media so that users will get update easily

Announcing the company's recruitment process

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

Need some inspiration?
